

SAFETY DATA SHEET

Zoetis New Zealand Limited

Section 1: Identification of the Substance and Supplier

Trade Name:	CERENIA® Tablets for Dogs
ACVM Registration No.:	A009844
Classification:	Restricted Veterinary Medicine (RVM)
Recommended Use:	Oral anti-emetic for prevention and treatment of nausea and vomiting including that induced by chemotherapy, and for the prevention of nausea and vomiting induced by motion sickness.
Company Details:	Zoetis New Zealand Limited
Address:	Level 4, 8 Mahuhu Crescent Auckland Central Auckland 1010 New Zealand
Telephone No.:	0800 963 847 (Business Hours)
Emergency Telephone No.:	National Poisons Centre: 0800 POISON (0800 764 766) Emergency Services: In an emergency dial 111
Date of Preparation:	01 July 2019

Section 2: Hazards Identification

Hazard Classification:	6.4A, 6.5B, 6.9B, 9.1B
Priority Identifier(s):	WARNING – KEEP OUT OF REACH OF CHILDREN ECOTOXIC
Secondary Identifier(s):	6.4A May cause eye irritation. Avoid eye contact. 6.5B May cause an allergic skin reaction. Avoid skin contact. 6.9B May cause organ damage from repeated oral exposure to high doses. 9.1B Toxic to aquatic organisms with long-lasting effects. Avoid contamination of any water supply with product or empty container.

Section 3: Composition / Information on Ingredients

Chemical Identity of Ingredients

Ingredient	CAS No.	Concentration
Maropitant citrate (Equivalent to Maropitant)	359875-09-5	231.75 mg/g (160.00 mg/g)
Other ingredients determined not to be hazardous.	-	-

This is a commercial product whose exact ratio of components may vary.
Trace quantities of impurities are also likely.

Section 4: First Aid Measures

Necessary First Aid Measures:	<p>For advice contact the National Poisons Centre at 0800 POISON (0800 764 766) or a doctor immediately. If the patient is not breathing begin artificial respiration and seek medical advice immediately. Never give fluids or induce vomiting if a patient is unconscious or convulsing, regardless of injury.</p> <p>Ingestion: DO NOT induce vomiting. If the patient is conscious wash mouth out with water. Do not give anything by mouth to an unconscious person. Seek medical advice immediately.</p> <p>Eye Contact: Flush the eye(s) out with running water for at least 15 minutes. Removal of contact lenses should be done with caution within 5 minutes of exposure. If symptoms develop seek medical advice immediately.</p> <p>Skin Contact: Remove any contaminated clothing and wash the affected area immediately with soap and water. If symptoms develop seek medical advice immediately.</p> <p>Inhalation: Move the patient to fresh air. If symptoms develop seek medical advice immediately.</p>
Poisoning Symptoms:	No specific information regarding the symptoms of poisoning is available for this product.
Workplace Facilities:	No specific facilities required. Standard emergency equipment must be available.
Hygiene Practices:	Avoid ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while using this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.
Notes for Medical Personnel:	Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. Note the nature of this product.

Section 5: Fire-Fighting Measures

Type of hazard:	This product is not explosive or flammable, however, irritating and possibly toxic gases may be generated by thermal decomposition or combustion.
Fire Hazard Properties:	Carbon dioxide and, if combustion is incomplete, carbon monoxide and smoke. Nitrogen and its compounds and, under some circumstances, oxides of nitrogen. Occasionally hydrogen cyanide gas in reducing atmospheres. Water.
Regulatory Requirements:	Not applicable.
Extinguishing Media & Methods:	Use carbon dioxide, dry chemical, foam or water spray to extinguish fires involving this product.
Hazchem Code:	Not applicable.
Recommended Protective Clothing:	During large-scale fire fighting operations wear approved positive pressure, self-contained breathing apparatus and full protective turn-out gear.

Section 6: Accidental Release Measures

Personal Precautions:	Personnel involved in clean-up should wear appropriate personal protective equipment to minimise exposure. This may include eye protection, chemically resistant gloves, boots and overalls.
Environmental Precautions:	Prevent material from entering surface water drains or waterways. If a significant quantity of material enters drains, advise emergency services.
Procedure for Spills:	<ol style="list-style-type: none"> 1. Non-essential personnel should be evacuated from the affected area. 2. Stop leak and contain the source of spill if it is safe to do so. Reposition any leaking containers to minimise further leakage. 3. Absorb the spill with an absorbent material (e.g. sand). 4. Collect the spilled material into labelled containers for disposal, minimising dust generation. 5. Decontaminate the spill area thoroughly with detergent and water, preventing runoff from entering drains.
Procedure for Disposal:	Contaminated material must be disposed of at an approved landfill or other approved facility in accordance with local, regional and national requirements. Avoid contamination of any water supply with product or empty container.

Section 7: Handling and Storage	
Handling	
Precautions for Safe Handling:	No special technical protective measures required. No special handling advice required.
Regulatory Requirements:	Not required.
Handling Practices:	Avoid ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while handling this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.
Approved Handlers:	Approved handlers are not required for this product.
Storage	
Conditions for Safe Storage:	Store below 30°C (Room Temperature). Protect from direct sunlight. Keep out of reach of children. Store in a well ventilated area in the original container, tightly closed, away from foodstuffs.
Store Site Requirements:	No additional requirements.
Packaging:	Store in the original container, away from foodstuffs.

Section 8: Exposure Control / Personal Protection

Always Read and Follow the Label Instructions and Warnings

Workplace Exposure Guidelines	
Workplace Exposure Standards:	A time weighted average (TWA) concentration for an 8-hour day and a 5-day week has not been established by NOHSC Australia for any of the major ingredients in this product. There is a blanket limit of 10 mg/m ³ for dusts or mists when limits have not otherwise been established.
Application in the Workplace:	The nature of this product makes it unlikely that this level will be approached during normal handling.
Exposure Standards Outside the Workplace:	None set.
Engineering Controls:	Engineering controls should be used as the primary means to control exposures. Use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.
Personal Protection:	<p>The following instructions are for those coming into frequent and / or lengthy contact with this product. For occasional handling employ precautions suitable for the conditions under which the product is being handled.</p> <p>Hands: Impervious gloves are recommended if skin contact is possible and for bulk processing operations.</p> <p>Eyes: It is always prudent to utilise protective eyewear.</p> <p>Skin: When prolonged or frequently repeated contact could occur, utilise chemically protective clothing. Selection of specific items such as a face shield, gloves, boots, or overalls will depend on the situation.</p> <p>Respiratory: Respiratory protection is not normally required; however, if necessary utilise an air-purifying respirator that complies with NZ standards.</p>
General Hygiene:	Change work clothes regularly. Avoid ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while handling this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.

Section 9: Physical and Chemical Properties

Appearance:	Oval, convex peach coloured tablets of various sizes
Odour:	No data available
Specific Gravity / Density:	Not applicable
Melting Point:	No data available. Decomposes before melting.
Boiling Point:	No data available
pH:	No data available
Solubility in Water:	Will disintegrate and partially dissolve in water
Flashpoint:	Not applicable. This product is not flammable.
Oxidising Properties:	Not applicable. This product is not an oxidiser.
Corrosive Properties:	Not applicable. This product is not corrosive.
Vapour Pressure:	Not applicable

Section 10: Stability and Reactivity

Stability of the Substance:	This product is stable under normal conditions of use.
Conditions to Avoid:	Protect from light.
Material to Avoid:	As a precautionary measure, keep away from strong oxidisers.
Hazardous Decomposition Products:	Carbon dioxide and, if combustion is incomplete, carbon monoxide and smoke. Nitrogen and its compounds and, under some circumstances, oxides of nitrogen. Occasionally hydrogen cyanide gas in reducing atmospheres. Water. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgement, and unconsciousness followed by coma and death.
Hazardous Polymerisation:	This product is unlikely to spontaneously polymerise.
Specific Data:	No specific data available.

Section 11: Toxicological Information

HSNO Classifications

- 6.4A** May cause eye irritation. Avoid eye contact.
- 6.5B** May cause an allergic skin reaction. Avoid skin contact.
- 6.8B** May cause target organ damage from repeated oral exposure to high doses.

Acute Effects

Acute Toxicity:	<p>Maropitant citrate monohydrate: (Species, Route, End Point, Dose)</p> <ul style="list-style-type: none"> Rabbit Dermal LDmin. > 2000 mg/kg Rat Oral LDmin. 1000 mg/kg Rat Oral LD50 > 2000 mg/kg <p>A greater than symbol (>) indicates that the toxicity endpoint being tested was not achievable at the highest dose used in the test.</p>
Irritation / Sensitisation:	<p>Maropitant citrate monohydrate: (Study Type, Species, Severity)</p> <ul style="list-style-type: none"> Eye Irritation Rabbit Severe Skin Irritation Rabbit Non-irritating Skin sensitisation Mouse Positive

Chronic / Long Term Effects

Repeated Dose Toxicity:	<p>Maropitant citrate monohydrate: (Duration, Species, Route, Dose, End Point, Target Organ)</p> <ul style="list-style-type: none"> 3 Month(s) Rat Oral 5 mg/kg/day NOAEL None identified 3 Month(s) Dog Oral 5 mg/kg/day NOAEL Cardiovascular system
Reproduction & Developmental Toxicity:	<p>Maropitant citrate monohydrate: (Study Type, Species, Route, Dose, End Point, Effect(s))</p> <ul style="list-style-type: none"> Embryo / Foetal Development Rat 75 mg/kg/day NOEL Not teratogenic
Genetic Toxicity:	<p>Maropitant citrate monohydrate: (Study Type, Cell Type/Organism, Result)</p> <ul style="list-style-type: none"> Bacterial Mutagenicity (Ames) <i>Salmonella</i> Negative <i>In Vitro</i> Chromosome Aberration Human Lymphocytes Negative <i>In Vitro</i> Chinese Hamster Ovary (CHO) cells Negative
Carcinogen Status:	None of the components of this formulation are listed as a carcinogen by IARC, NTP or OSHA.

Section 12: Ecotoxicity Information

HSNO Classifications	
9.1B	Toxic to aquatic organisms with long-lasting effects. Avoid contamination of any water supply with product or empty container.

The environmental characteristics of this material have not been fully evaluated. Avoid contamination of any water supply with product or empty container.

Ecotoxicity Effects	
Bioaccumulation & Toxicity:	Acute toxicity to aquatic organisms is expected. The active ingredient in this formulation has low potential to bioaccumulate and long-term adverse effects to aquatic organisms are not expected. See the aquatic toxicity data for the active ingredient in the table, below.
Aquatic Toxicity:	<p>Maropitant citrate monohydrate: (Species, Method, End Point, Duration, Result)</p> <ul style="list-style-type: none"> • Mysid Shrimp NPDES LC50 48 Hours 0.68 mg/L • Sheepshead Minnow NPDES LC50 96 Hours 0.68 mg/L • Red Algae NPDES IC50 7 Days 0.23 mg/L <p>The above aquatic toxicity studies were conducted with CJ-11,972 (free base). The effects of the two materials are predicted to be similar.</p>
Toxicity to Birds:	Not applicable.
Toxicity to Soil Dwelling Organisms:	Not applicable.
Acute Toxicity to Bees:	Not applicable.

Environmental Fate
No information available.

Section 13: Disposal Considerations	
Product Disposal:	Preferably dispose of product by use in accordance with label directions. Otherwise dispose of product at an approved landfill, or other approved facility in accordance with local, regional and national regulations. Avoid contamination of any water supply with product.
Container Disposal:	Dispose of empty containers by wrapping in paper and putting in garbage for disposal at an approved landfill, or other approved facility in accordance with local, regional and national regulations. Avoid contamination of any water supply with empty container.

Section 14: Transport Information	
Dangerous Goods Classification	
UN No.:	Not applicable. This product is not a dangerous good.
Class:	Not applicable. This product is not a dangerous good.
Packing Group:	Not applicable. This product is not a dangerous good.
Proper Shipping Name:	Not applicable. This product is not a dangerous good.

Section 15: Regulatory Information

HSNO Approval No.:	HSR007759
HSNO Controls:	See www.epa.govt.nz for controls
ACVM Registration No.:	A009844
ACVM Controls:	See www.foodsafety.govt.nz for registration conditions

Section 16: Other Information

Note: This product is a veterinary medicine and must therefore be used in accordance with the container label directions. A comprehensive package of toxicological and environmental data for the active ingredients of this product has been submitted to the Government health and environment authorities and has been evaluated by expert toxicologists and environmental scientists.

CONTACT POINT: **Zoetis New Zealand Limited:** 0800 963 847 (Business Hours)
 National Poisons Centre: 0800 POISON (0800 764 766)
 Emergency Services: Dial 111

This Safety Data Sheet summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products.

PLEASE READ ALL LABELS CAREFULLY BEFORE USING PRODUCT.

If clarification of further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.
